

FOURTH DIMENSION

Blind by your light
by your light
and the universe aligned
by your soul
by your soul

out of the way
way out I feel
like a burning cigaret
way on
i feel
runaway

Go beat my heart
bringing heaven down
I need you need here right now
so hurry up
take your time

out of the way
I know feel
like i'm orbiting the moon
way on I say
runaway

if the universe began to fall I don't care
when I get on my way
i'll be tripping out
and if the mirror don't reflect my face
then who really cares
cos i'll be on my way to the the fourth dimension
hey

so fly high like sky
feel me rise
are you higher than the Sun
do you feel
do you feel

I'll be on your side

everything I feel is great
baby there's no time to hate
every I feel so real
everything I wanna feel
every I feel so great
baby there's no time to hate

hey hey
