

ALL THAT IS

All that is
is who I am
and all that lives
the light in these hands
who I am
who I am

all that we know is how to love
all that I want is to be in love
with who I am
ooh who I am

in the depths of my heart I am broken apart and I am torn
i've been chasing this light
i've been losing my mind
my path unaligned
I'm struggling to find

I'm struggling to find

the sound of my heart
hearing the sound of my own heart

i've fallen in too deep
i've fallen in too deep

in the depths of my heart I am broken apart
i've been chasing this light
i've been losing my mind
my path unaligned
i'm struggling to find who I am

all that is
who I am
is
all that is
is
all that is
who I am
